THE MEANING

SPIN

to describe our feelings of being active and in permanent motion

ERA

as we step into a new era of designing sport products

OUR SLOGAN

KEEP THE FUN SPINNING

Enjoy your precious time with family and friends. Listen to your heart laugh! Feel freedom, individuality, exciting moments and endless fun. Keep the adrenaline rushes and save those unforgettable impressions in your heart.

SPINERA VISION

SPINERA AWAKENS EMOTIONS GLOBALLY

SPINERA MISSION

SPINERA MAKES YOUR FUN AFFORDABLE

THE TEAM AROUND SPINERA

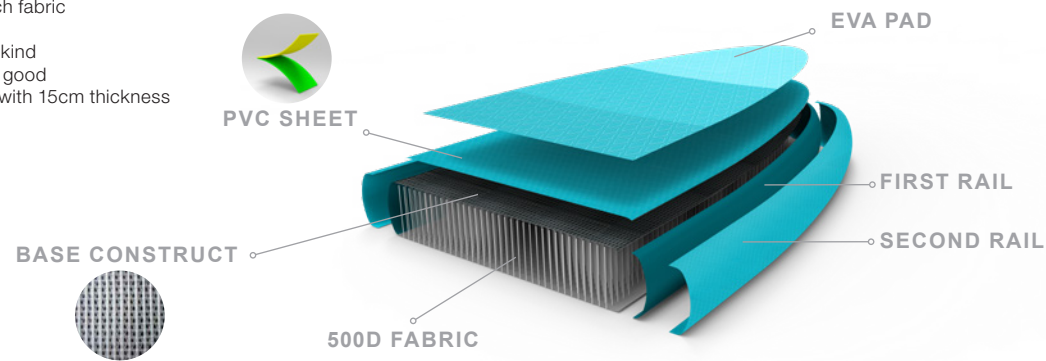

The SPINERA team has been involved in the distribution of watersports and action sports products in Europe for more than 20 years. During this time the necessary know-how about a water sports product and how it should be built was created. Today, about 25 employees are directly behind the development of SPINERA the headquarters in Germany and Austria and many more indirectly around the globe.

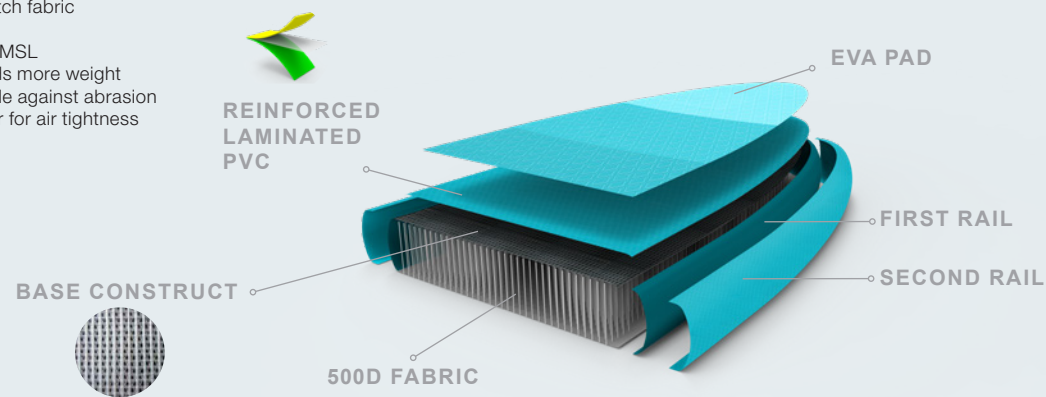

HDDS - HIGH DENSITY DROP STITCH

- single layer dropstitch fabric
- knitted
- 90% of sup use this kind
- weight and stiffness good
- works good for sup with 15cm thickness

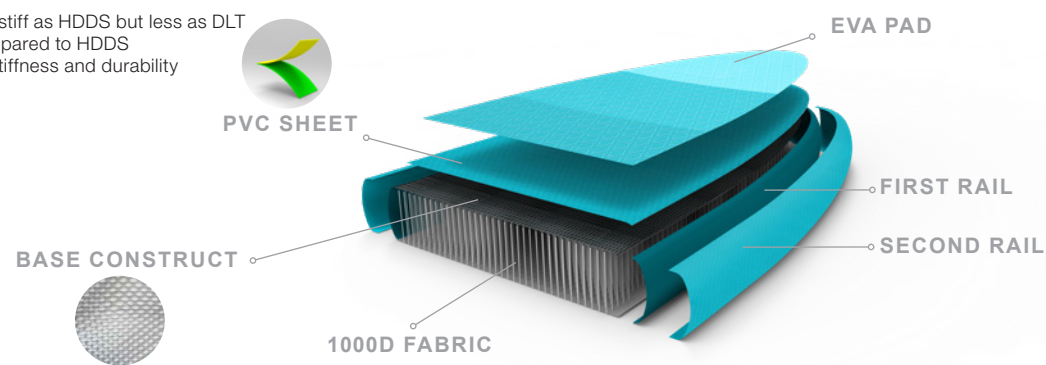

DLT - DOUBLE LAYER TECHNOLOGY

- double layer dropstitch fabric
- knitted
- fusion double layer - MSL
- more stiffness - holds more weight
- fabric is more durable against abrasion and as a matter better for air tightness

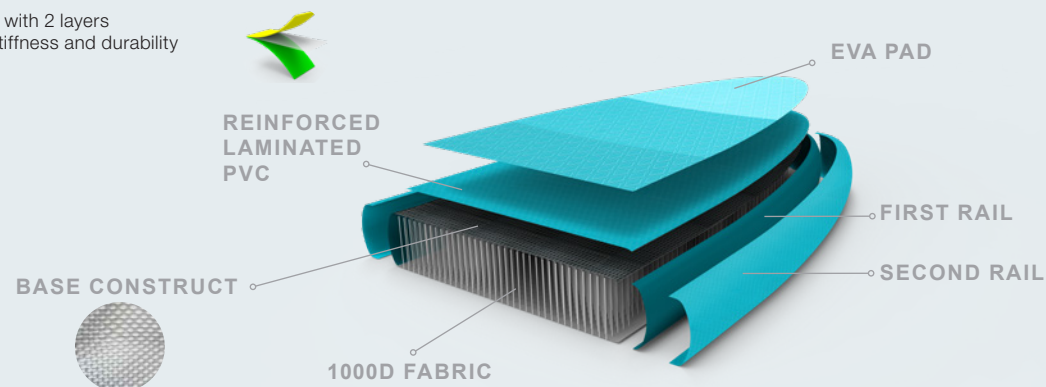

SL ULT - SINGLE LAYER ULTRA LIGHT

- single layer dropstitch fabric
- woven
- still it is a little more stiff as HDDS but less as DLT
- 25-30 % lighter compared to HDDS
- very light and max stiffness and durability

DL ULT - DOUBLE LAYER ULTRA LIGHT

- double layer dropstitch fabric
- woven
- same as SL ULT but with 2 layers
- very light and max stiffness and durability

LARGER TUBE DIAMETER

The valves are very big and of high quality.

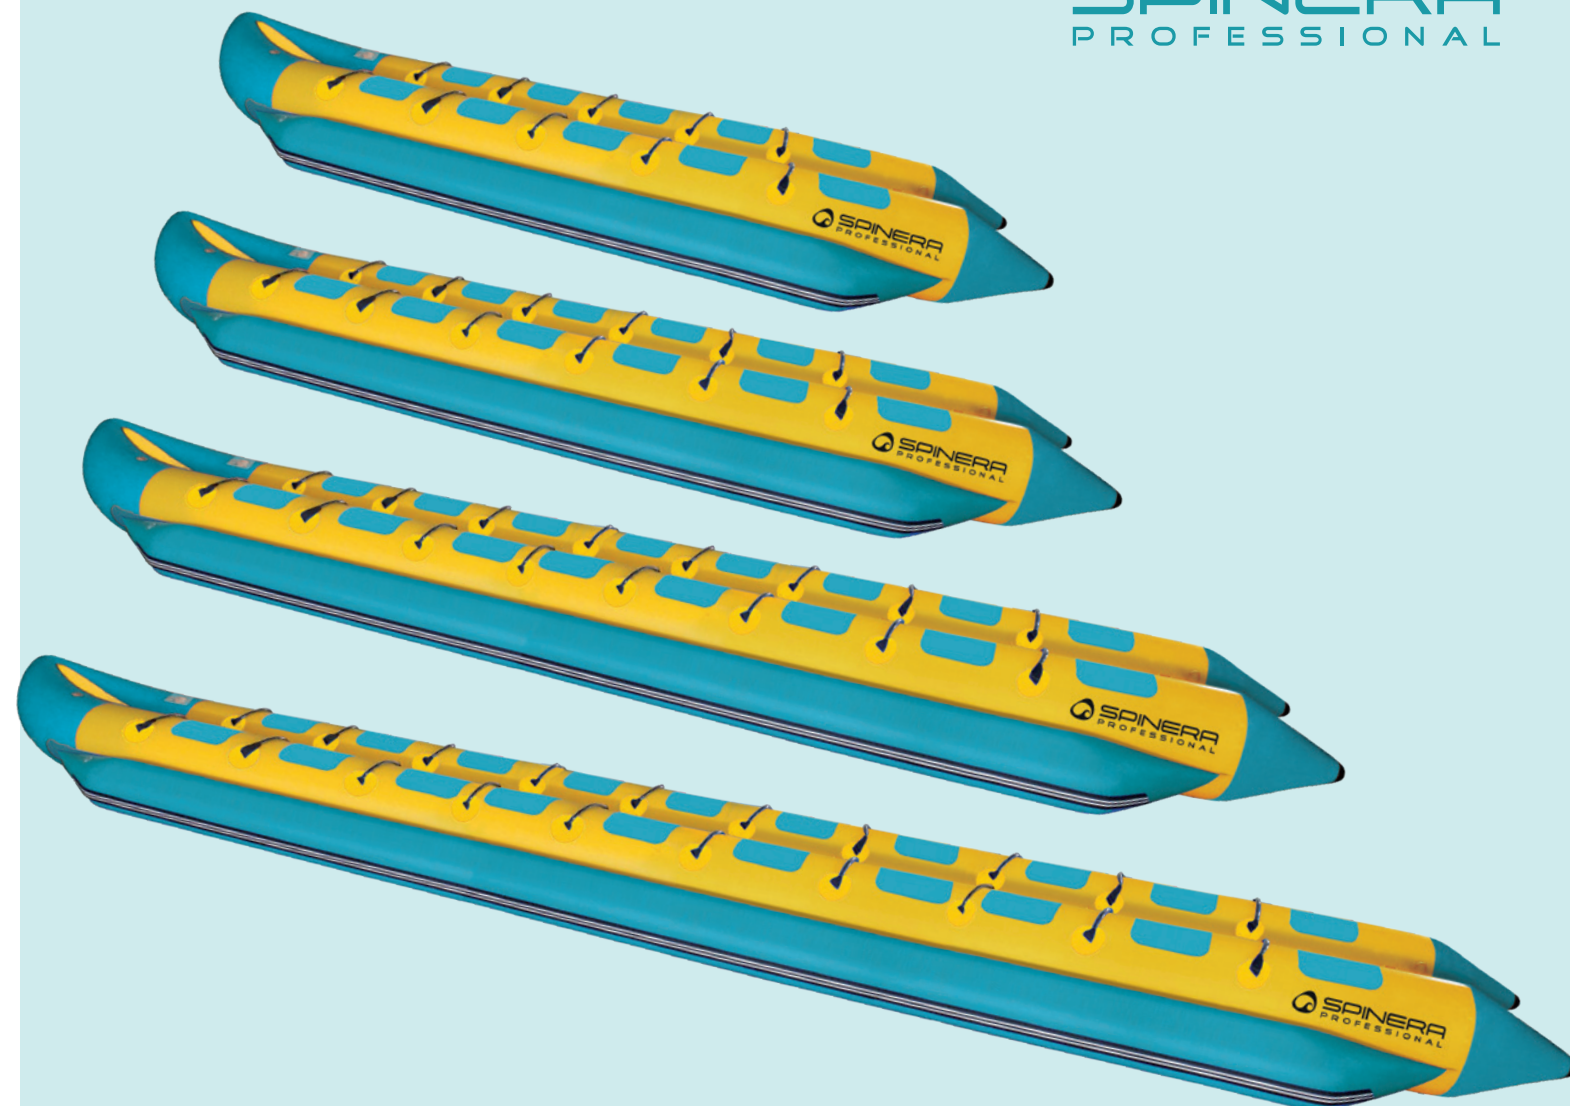

Every handle has been glued very steady.

Towing ring has been glued plurally.

Strengthened rear caps for more stability.

ALL OUR PRODUCTS ARE MADE OF A VERY TOUGH, FIVE COAT RUBBERIZED FABRIC. IT IS VERY DESENSITIZED AGAINST UV RAYS, HAS A SLIGHT WATER RESISTOR AND BECAUSE OF THIS PERFECT SLIPPING FEATURES. ALL SEAMS ARE GLUED TWO TIMES.

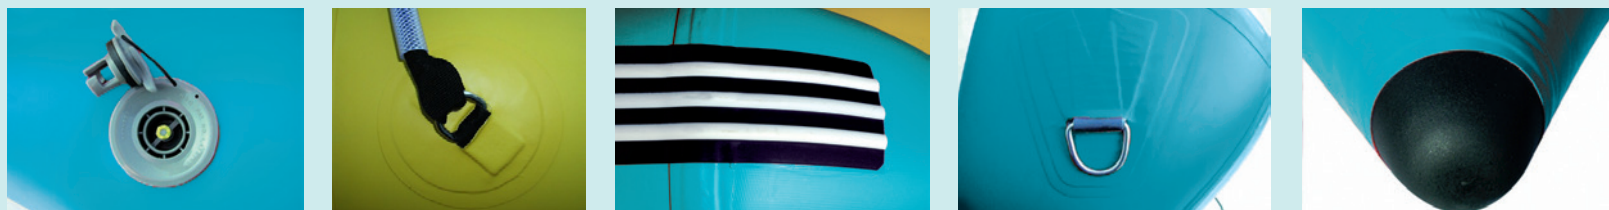

SPINERA PROFESSIONAL DOUBLE MULTIRIDER HD

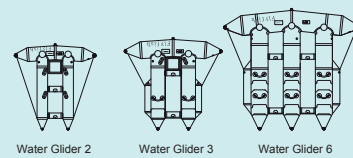

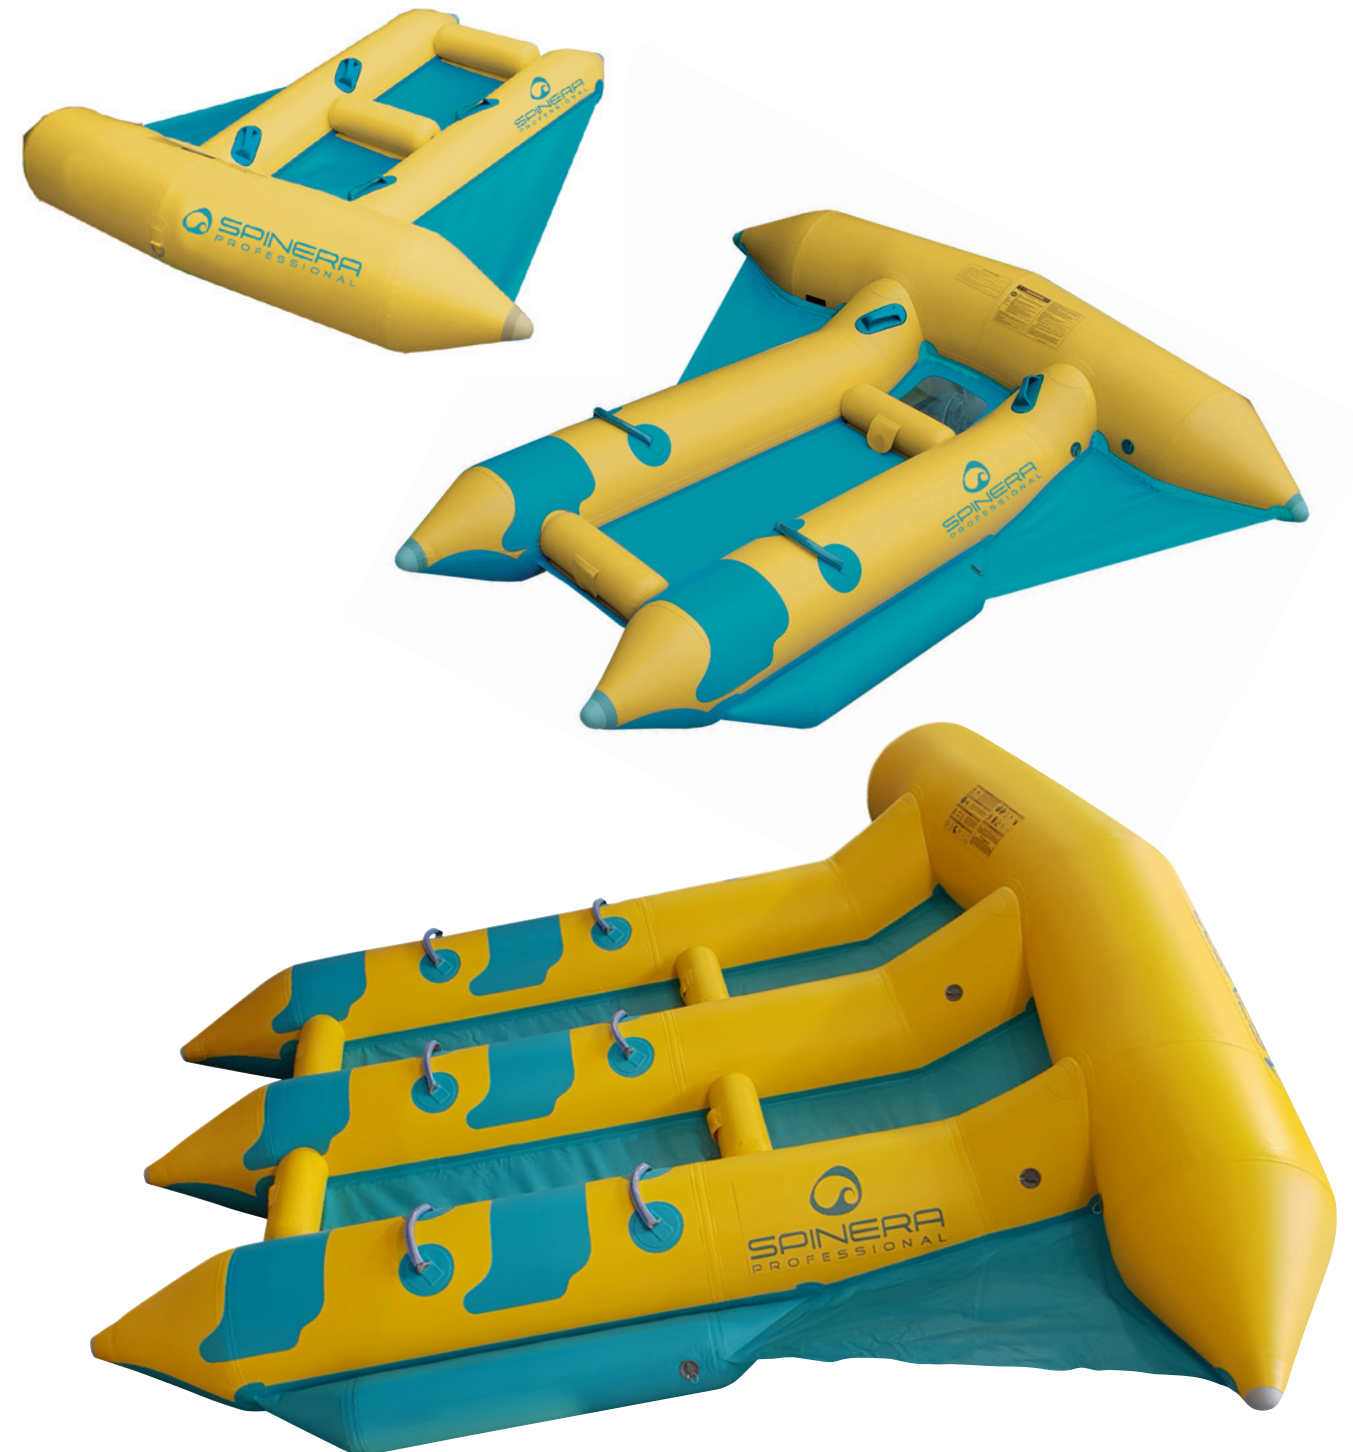

Our double Multirider was designed with the commercial resort operator in mind. This design of Water Banana pulls easier with less water resistance because of the gradual bow and stern rise. Large reinforced shackle-rings are located on both tubes.

- Standard Features:
- Main tube fabric: 1.000 denier / 0.9mm thickness
 - Side rubbing strake on the side tube
 - Reinforced shackle d-rings
 - Soft handles
 - 3-chamber security system „we take care about safety“

WATER GLIDER HD

The Water Glider was designed and developed completely through many years of trial and error. We are proud of the Water Glider and its reputation with customers around the world.

The Water Glider 6 has become the most popular model to our European customers. The Water Glider is constructed with super tough fabric tube and the bottom is specially reinforced to withstand commercial use. Large reinforced shackle-rings are located on tubes.

ATTENTION: Max Speed: 20 mph / 32 km/h
All faster towing is on boat driver and Riders own responsibility.
